

## **Do you want your name to be taken to SUN ?**

If you want your name to travel around Sun's atmosphere, braving brutal heat and radiation, here comes your choice. NASA is inviting people around the world to submit their names online to be placed on a microchip aboard its historic solar probe launching this summer. The US space agency reports that it would accept submissions until 27<sup>th</sup> April, 2018.

Hurry up !
