

Section- 6 : Control and Instrumentation Works		
6.1	General Requirements	6- 1
	6.1.1 General requirements	6- 1
	6.1.2 Reliability and availability	6- 1
	6.1.3 Standardisation and uniformity of hardware	6- 2
	6.1.4 Operability and maintainability	6- 2
	6.1.5 Unit control and monitoring philosophy	6- 3
	6.1.6 Environmental conditions	6- 4
6.2	Distributed Digital Control, Monitoring and Information System (DDCMIS)	6- 6
	6.2.1 General requirements	6- 6
	6.2.2 System description	6- 9
	6.2.3 Measurement functions of control system	6- 11
	6.2.4 Control system requirements	6- 15
	6.2.5 Man-machine interface system and plant information system (MMIPIS) requirements	6- 28
	6.2.6 Program development/ modification, system maintenance and documentation facility	6- 34
	6.2.7 Data communication system (DCS)	6- 36
	6.2.8 Sequence of events recording/ annunciation functions	6- 37
	6.2.9 Master & slave clock system	6- 38
	6.2.10 Power supply & grounding	6- 38
	6.2.11 System software requirements	6- 39
	6.2.12 System documentation	6- 39
	6.2.13 Training	6- 40
	6.2.14 Warranty	6- 40
	6.2.15 Performance requirement of the DDCMIS	6- 41
	6.2.16 Large video screen (LVS)	6- 45
6.3	Other SG/TG Related Control & Instrumentation System/ Equipments	6- 48
	6.3.1 Flame monitoring system	6- 48
	6.3.2 Coal feeders control and instrumentation	6- 49
	6.3.3 Electromatic safety valves	6- 50

Clause No.	Description	Page No.
6.3.4	Furnace temperature probes	6- 50
6.3.5	Acoustic pyrometer	6- 50
6.3.6	Mill and air heater fire detection system	6- 51
6.3.7	Furnace and flame viewing system	6- 51
6.3.8	Electronic remote drum level monitoring system	6- 52
6.3.9	Turbine supervisory system (TSS)	6- 53
6.3.10	BFP turbine supervisory instruments	6- 55
6.3.11	Plant performance analysis, diagnosis & optimization (PADO) software	6- 55
6.4	Measuring Instruments (Primary & Secondary)	6- 59
6.4.1	Configuration, maintenance, diagnostics & record-keeping facility for electronic transmitters and analysers	6- 59
6.4.2	Specification for electronic transmitters for pressure (DP), flow and level	6- 60
6.4.3	Temperature sensing elements and cold junction compensation boxes	6- 62
6.4.4	Flue gas analyser instruments	6- 66
6.4.5	Vibration monitoring system	6- 69
6.4.6	Specification for flow elements	6- 70
6.4.7	Specification for local gauges & rotameters	6- 72
6.4.8	Specification for process actuated switches	6- 74
6.4.9	Specification for indicator, recorders	6- 76
6.4.10	Electric to pneumatic (E/P) converters	6- 77
6.4.11	Displacer type level transmitters	6- 78
6.4.12	Positive displacement type flow transmitters	6- 78
6.4.13	Impact head or ultra sonic type flow meter	6- 79
6.5	Steam and Water Analysis System (SWAS)	6- 82
6.5.1	SWAS panels	6- 82
6.5.2	Specification of analysers	6- 83
6.5.3	System and type of measurements	6- 90
6.5.4	Alarm contacts	6- 92
6.5.5	General	6- 92
6.6	Unit Control Desk, Unit Control Panels, System Cabinets, Local Panels & Transmitters Enclosures/Racks	6- 93
6.6.1	General	6- 93
6.6.2	Control desk and panel	6- 94
6.6.3	Cabinets, enclosures and panels	6- 95
6.6.4	Local instrument enclosure and racks	6- 96
6.7	Electric Power Supply	6- 97
6.7.1	General	6- 97
6.7.2	Power supply requirements	6- 97
6.7.3	DC power supply system (24 V)	6- 98
6.7.4	Uninterruptible power supply (UPS) system	6- 99

Clause No.	Description	Page No.
6.7.5	Auxiliary equipments	6- 101
6.7.6	Battery racks	6- 102
6.7.7	Load end power supply distribution	6- 102
6.8	Electric Actuators	6- 103
6.9	Process Connection Piping	6- 106
6.9.1	Impulse piping, tubing, fittings, valves and valve manifolds	6- 106
6.9.2	Sample piping system	6- 107
6.9.3	Air supply piping	6- 107
6.9.4	Installation and routing	6- 108
6.9.5	Piping/ tubing support	6- 109
6.9.6	Shop and site tests	6- 110
6.10	Instrumentation Cables	6- 113
6.10.1	General requirements	6- 113
6.10.2	Instrumentation cable specifications	6- 113
6.10.3	Instrumentation cable interconnection and termination philosophy	6- 117
6.10.4	Internal panels/cabinets/system cabinets wiring	6- 120
6.10.5	Cable installation and routing	6- 120
6.10.6	Cable accessories and fittings	6- 121
6.10.7	Field mounted local junction boxes	6- 121
6.10.8	Conduits	6- 122
6.11	Maintenance and Calibration Equipments	6- 123
6.11.1	Test bench	6- 123
6.11.2	Mechanical items	6- 124
6.11.3	Electrical items	6- 127
6.11.4	Other items - for the laboratory	6- 131
6.12	PLC Based Miscellaneous Control Systems	6- 132
6.12.1	General requirements	6- 132
6.12.2	Programmable logic based control system	6- 132
6.12.3	Input/output modules	6- 135
6.12.4	Printer	6- 137
6.12.5	Data communication system (DCS)	6- 137
6.12.6	System reaction time	6- 138
6.12.7	Operator interface displays/ logs	6- 138
6.12.8	Control & power supply scheme	6- 138
6.12.9	Control cabinets / panels / desks	6- 138
6.12.10	Annunciation system	6- 140
6.12.11	Software documentation and software listings	6- 141
6.13	Type Test Requirements	6- 142
6.13.1	General requirements	6- 142
6.13.2	Special requirement for solid state equipment/ systems	6- 143
6.13.3	Type test requirement for C&I systems	6- 144: 149
